

Books Published by the Beckley Foundation Press & Book Chapters by Amanda Feilding

BECKLEY FOUNDATION PRESS TITLES

LSD: My Problem Child and Insights/Outlooks

Albert Hofmann – translated by Jonathan Ott. Edited by Amanda Feilding.

Co-published by the *Beckley Foundation Press* and *Oxford University Press* (2013)

A new and improved translation of Hofmann's autobiography and essays, the last to be approved by him before his death in 2008. A fascinating account of the development of LSD and the societal effect it had in the last half of the 20th century.

Cannabis Policy: Moving Beyond Stalemate

Robin Room, Benedikt Fischer, Wayne Hall, Simon Lenton, Peter Reuter

Convened by Amanda Feilding.

Co-published by the *Beckley Foundation Press* and *Oxford University Press* (2010)

The final report of the Beckley Foundation's Global Cannabis Commission, a group of experts convened by Amanda Feilding to analyse future directions for cannabis policy. The findings were initially published in 2008 as Beckley Foundation Report: ***The Global Cannabis Commission Report***, subtitled ***Cannabis Policy: Moving Beyond Stalemate (2008)*** and later co-published with Oxford University Press as this volume.

The Report can be downloaded from the Beckley Foundation website at www.beckleyfoundation.org/Cannabis-Commission-Report.pdf/

"The report of the Global Cannabis Commission convened by the Beckley Foundation is a valuable contribution... New policies must be based on empirical data, not on ideological assumptions and dogmas... The notion of focusing on cannabis, as proposed by the Beckley Foundation, is a key contribution to the debate. It points towards more efficient and more humane methods of dealing with this matter."

—Fernando H Cardoso, former President of Brazil

The Pharmacology of LSD: A Critical Review

Annelie Hintzen and Torsten Passie

Co-published by the *Beckley Foundation Press* and *Oxford University Press* (2010).

“We should be grateful to the authors for their patient compilation of a huge literature... The subject has always raised controversies, but this volume provides a much-needed sober and neutral scientific account”

—Leslie Iversen, visiting Professor of Pharmacology at Oxford University and Chair of the Advisory Council on the Misuse of Drugs

Non-Invasive Evaluation of Human Brain Fluid Dynamics and Skull Biomechanics in Relation to Cognitive Functioning

Yuri E Moskalenko, Amanda Feilding and Peter Halvorson.

Beckley Foundation Press (2010).

Hofmann’s Elixir: LSD and the New Eleusis

Talks & Essays by Albert Hofmann and others. Edited by Amanda Feilding.

Beckley Foundation Press (2010).

“Hofmann’s Elixir goes to great lengths to show that the measure of Albert Hofmann is not just a single discovery... this book provides the reader with a wonderful, insightful picture of one of the 20th century’s most important and charismatic scientists.”
